

Page 10,001 Historical Image collection of Wesley Arnold Thousands of images will be put on DVD with 12,000 pages of history research. And it is not about me it is about preserving our history and our freedom for future generations. I started this history and image compilation and hopefully other friends of history will add to it. During my 70 years I was a professional photographer and copied as many old photographs as I could. People told me that I could copy their pictures and publish them without any restrictions if not I simply did not copy them. Of course after many years sources are a bit fuzzy because the memory is gone. Usually the source was the family itself or descendant of them. Things are in groups in alphabetical order. Sorting codes are in front of each item to speed adding items.
