In this Who's Who are listed young men and women. our brothers and sisters who have given their lives to preserve human rights and freedom around the world. We honor their memories and service. Some of them died in attacks such as did over 3000 innocent Americans in the 2nd WTC attack on 9-11 (the 1<sup>st</sup> was 2/26/93 ). Many more have been killed in additional attacks such as Boston massacre, mall bombers, road bombers, aircraft bombers etc. Remember the under-wear bomber over Detroit. (If his bomb hadn't fizzled hundreds in Detroit Area may have been killed.) Why have there been thousands of attacks (see Attacks in USA for actual list of attacks) on innocent people since 9-11 all over the world virtually all by members of the Terrorist Religion? This is an ideology which has been proven by their actions to be a growing threat to us, is anti human rights, anti equal rights for women, and anti US Constitution. Don't take our word for it just look at their actions in other countries. See for yourself at <http://www.thereligionofpeace.com/> Stop the killing. Stop the bombing. Stop the abuse of women. Stand up for freedom of speech and our Constitution. This is historically significant. Saving the lives of our children is important.

Old families are listed on pages 6000-7999.

Hundreds of graves are now unmarked at Warren Union and St Clement Cemeteries and many stones are unreadable. Please help Historian Wesley Arnold identify these. Hundreds are children. If you have relatives buried there please contact me at [wecare@macombhistory.us](mailto:wecare@macombhistory.us) while there are still people alive that have some knowledge of who is buried there. These will be saved and published in libraries, and on this free website where anyone can see and print any item in my histories.

**The following message from the grave stands out.**

**DO GOOD WHILE YOU STILL CAN,  
BEFORE ITS TOO LATE.**

**Behold and see as you pass by, as you are now, so once was I,  
as I am now you soon will be, prepare thyself to follow me,  
USE TIME WISELY WASTE IT NOT, AS SOON THIS TO WILL BE YOUR LOT.**

**Neenay**, An Indian woman who saved the Governor's life. In 1820 The new governor of Michigan was Lewis Cass. He had a problem. It seems that rumors were being spread that Michigan was a swamp and terrible place to live. This had happened because surveyors had been sent out during a wet season and found many wet areas. He began a campaign to build roads, lighthouses, and he negotiated land treaties with the remaining Indians. He wanted to see for himself what the state was like so he on a 4,200 mile trip around the state. He and his men camped near where Sault Ste Marie is now located. He met with the local chiefs and asked their permission to build a fort there. They told him, no left the meeting and went over to a wigwam nearby and raised a British flag. Cass walked boldly over to the flagpole with only his interpreter, an Indian woman named Neenay. He told the chiefs thru his interpreter that no foreign flag was to be raised. Then he took the British flag down, stepped on it and removed it to his tent. At this point it was very likely that he would have been killed. But his interpreter who was the daughter of an Indian chief and who had gone to school told the chiefs that it would be unwise to kill him as it would bring in the American Army. And thru her another meeting was set up resulting in permission to build the fort and gifts to the Indians. Had

there not been an interpreter or a common language another war would probably happened and thousands would have died. Humans need to communicate with each other especially in emergencies. Have you ever tried to talk to someone who does not understand English. What if your life depended on it? Relating it to today's world 90% of the world does not understand English now and will not learn it in our lifetime. If a few people in each community would invest ten minutes a day to learning the international vocabulary, we could understand and be understood regardless of the local language. Why has it been mentioned here? Because it can save lives and save the US millions wasted in translating costs at the UN which all ends up in the trash within a short time. It has been scientifically proven to be the most time and cost efficient solution to the world language problem. And is historic fact that many people have died because of language nonunderstandings.

Neil Gerald L 2007 Warren Historical Society Award

**Neil, Gerald** This man is one of my personal heroes. When I was 14 and got interested in history this man gave me one of his Warren histories which had been mimeographed. He was always a gentleman. Gerald was known to Art Miller township Supervisor and with Art's help held several positions in the City of Warren. While doing this Gerald researched and wrote a history of Warren. Since the Township books are now lost we depend on Gerald's history for much of the history of those days. He wrote two little books about Warren History and a book of maps. We owe him a debt of gratitude for his work. I am still trying to find a good picture of him. If anyone has one please loan me a copy so I can put his picture in my book honoring him. Need More Information
