

## **Notable Accomplishments and History of CLHS Classes** mainly 1960-64 **See my Who's Who for others' accomplishments from 1818-present.**

We are writing this final document about ourselves and our classmates to see what we accomplished besides just living a life, raising children and acquiring material possessions.

### **What happened to the kids we went to school with?**

**We need your help to add bits and pieces here. So if you know even a little about someone please let us know. This is a community project.**

You are all free to **write your own part of this history**. And you may rewrite yours to change it when you wish. Just send me the updated version. You choose whether to be included or not. If you request to be left out and be forgotten by most of your classmates and great great grand children that is your choice. This is going to Library of Congress and other local libraries. Classmates listed with a **DU** have been reported as dead but this does not mean that it has been verified. Many class members have told me that they want to know which classmates have died so this historian reports those which have been reported to me. A report of **DV** means it has been verified. If those who know send me verification then I can list that death as verified. I do not have funds to pay for death certificates. In general we must limit these to under a page and preferably one half page to keep the book at 100 pages. No matter what I do people find fault so you write your own if not I will just write my notes of what your classmates have told me.

**Privacy:** You may omit any details you wish. Addresses and fone numbers and email addresses are omitted to protect privacy except for funeral homes. You may include these if you wish. I am endeavoring to make my own list of emails, addresses and fone numbers for my personal use and will not give them out. If you wish to contact someone you may send me your email or fone and at your request I can give those to who you are trying to contact. It will be up to them to contact you if they want to. In that way privacy is maintained. Public information if publishable such as newspaper articles, year book contents etc. If you were in a class you are included on the list because your class mates for the most part want an accurate class list but I will not make you an unperson.

**This a concise history but not negative. Just our accomplishments, what the we did for our community, and our basic History**, fluff omitted. Example the first person listed below, your historian, earned several college degrees, belonged to many organizations, traveled around the world, was listed in Who's Who and was given many awards. All of this is omitted as it did no good to the community. Also what he bought, collected and acquired are irrelevant. Just paying for a membership in an organization is not an accomplishment so is omitted. That he put his life online to defend the community against a local terrorist cell when he was 70 years old is too difficult to explain so we will call it service as a witness.

We will pick on your humble historian first.

**Arnold, Wesley Class of 1962.** shy kid, average student, was picked on had very few friends in school. (most are now dead and he is next) He served our country in the US Army given medals. No big hero just a humble soldier who volunteered to serve his country and got shot at. He was a Red cross Volunteer and taught First Aid, was a scouter and Scoutmaster, saved lives, had a good influence on youth. Was a social worker and helped many families. **Was a good teacher and college professor and helped his students giving them useful and practical information.** (combined over 50 years)

**Wrote and published 150 books, 136 on Local history** recording our local history and genealogy for future generations and helped **preserve our American Freedom and Way of Life.**

**Did doctoral work** on finding the easiest language for humans to communicate between languages around the world **to save lives and help prevent misery** caused by misunderstanding. Published free information on international vocabulary to help with understanding between languages and save lives. See [easiestlanguage.info](http://easiestlanguage.info) Did volunteer work in **humanitarian causes**. Gave away for free his local history books he wrote including DVDs to all who wanted one and became known as the humble historian because he spent thousands of hours recording our local history and put it up on a free website. [macombhistory.us](http://macombhistory.us) and [domostgoodforall.info](http://domostgoodforall.info) **Helped hundreds of students get college scholarships and helped people get better jobs.** Did volunteer work in aiding the homeless. Was a witness for homeland security against a local terrorist cell. Encouraged people to help each other and help preserve our history, freedom and American Way of Life. See Table of contents for list of books. Got up on his roof and installed solar collectors and worked on home wind turbine made from car alternator. Now gets free electricity from our free sun. Best thing is feels independent does not have to worry about power outages. Has rain barrels for free water and emergency back up heat via wood stove which can be hooked up in case gas goes out. Likes the Independence. Lives a good high life off social insecurity which he paid into for years. What he would do different would be to become a college professor earlier and live on a farm away from the excessive numbers of inconsiderate, immoral, immature, uneducated, ignorant masses who vandalize our property and threaten our security.

**Alexander Edward** shy student of the Class of 1962 died of suicide probably by depression reasons unknown. **DU** He was a nice person. If just one person would have befriended him perhaps this tragedy could have been prevented. I was too shy but did see him much. We did not know he was depressed. Learn from this.

After being sent home to die, Lee was cured from "terminal" cancer, at age 1 1/2, using an herbal formula that was developed by an American Indian, who resided at 8 Mile and Woodward, in 1946. In his 20s, he repeatedly visited the Indian and begged for the complete, five herb formula, which he eventually got and then began healing cancer in others and succeeding! He worked on the mural that stood, on the wall in the hall, beside the principal's office, at Center Line High, in 1960 and it remained there for many, many years before being removed. He has "died" three times and come back! He was diagnosed to die three more and survives still! Also, Lee has survived the many "regular" scrapes with death, the normal teenage near tragedies and more recently a 22 car wreck on I-75. Lee has three degrees and taught and counseled in high school, but mostly middle school, for 22 1/2 years and loved every minute with the kids. With his illness experiences, he has researched disease and now heals, for free, most any illness, but cancer remains his most satisfying one to heal--he has never lost any type cancer "patient" in over 48 years!! Lee has invented a brand new, 100% effective hydrotherapy and a simple, unique sleep system that allows deep sleep in a few minutes and requires only 4-5 hours in bed to totally refresh each night, he's reversed alzheimers, heart disease, blindness, diabetes and many, many other illnesses. For the last 19 years, Lee, a non-gambler, has made a living, and financed his healing and research, by playing casino blackjack and has an e-book in the "works" describing his 90% plus, winning technique. After two failed marriages, Lee has finally found ("Why did you make me wait so long, God"?, he asks.) the "perfect" woman, "meant" for him, who is the love of his life and he plans marriage soon!

Romancheck Paul Rochester MI

Roose Karen Rebecca CLHS1962 married Bill Brinley was a teacher Utica MI

**Ribbing William** served his country in the US Coast Guard for 20 years retired in New Orleans as a Warrant Officer in 1982. Helped educate us through very informative posts and emails. He has informed many of us. Hi Wesley, You can add a bit to my historical record. After retiring from the US Coast Guard, I remained in New Orleans. I had already traveled half way around the earth and back. I became Quality Assurance Manager for a private Company, and started My Own Company named BR Industries, Inc. providing services to the contract companies servicing Avondale Shipyard while they were building five Navy Ships. My contracts included all five ships.

Upon completion of the contracts, I accepted a teaching position at New Orleans Regional Technical Institute providing students with a career in Non-destructive testing of metals. I obtained a teaching Certificate, and a Nuclear Materials handling license for the institute, and as Radiation Safety

Director for the Institute, I taught, Radiography, Ultrasonic, magnetic particle, and dye penetrant, testing of metals and welds, and wrote the state curriculum for the position in All Louisiana Technical Institutes. My course included Nuclear Physics and Radioactive Materials Handling and Safety. Most of the students, upon graduation, obtained jobs in the Non-destructive testing companies providing a service for the petrochemical companies x-raying oil pipeline welds offshore, or equipment maintenance in the Oil and Chemical plants around the Gulf of Mexico.

I was then hired into Management of one of the Non-destructive testing Companies, and held Radiation Safety Classes as Director for several Companies. As time went on, I found myself as Head of Quality Assurance for A Steam Turbine and Rotary Compressor Company that is internationally known in the Power Generation and Petro Chemical Industries in New Orleans.

Working for them, I was able to have a specific Ultrasonic Testing Procedure that I developed, published in the American Welding Society that became widely used in the industry. I was also able to create the documentation and procedures required to obtain International ISO Certification for the Company.

I finally retired a second time at the age of 58 and moved to Wyoming. Four years in the -40 degree winter temperatures with blinding snow storms, provided me with the incentive to return to Pensacola, Florida where I remain to this day.

I have six grown adult kids, (Five boys and one girl) and 13 grand kids and three great-grand kids. I have been fortunate to locate my father's family in Sweden and learned of my Swedish Heritage, and spent a two week vacation traveling around Sweden meeting all my relatives in 1996, and we maintain communication to this day. Our family count is over 115 persons, scattered from Australia, throughout the United States, Sweden, England, The Netherlands, Vietnam, Spain, and Ireland, and growing larger every day. My latest goals are plans to revisit many of my past venues and maintain family ties and visits across all locations where family reside. I am now the eldest Family member, so my historical records need to be passed down to the next generation

Samp Kenneth Allan CLHS1962 married Laura Gabara class of 1964 went into banking  
Suwinski Gerald Eugene CLHS1962 **DV** Jerry divorced Tool & die worker Center Line  
Schimmel James CLHS1962 Roscommon Mi

Thomas Joseph Harold CLHS1962 married Mary Perrysburg Ohio

**Turner Dwight Baxter** CLHS1962 married Barbara McGredor TX 76657 **Marine Corps Reserve** , Truck driver, restaurant manager Minister for Jehovah's Witnesses sales manager for van conversion plant. Oct 31 2015 Believe or not Wesley, I live in a nursing home in Waverly, TN . I've been here 3 and one-half years. I had 3 different strokes. I'm doing just fine otherwise. Arguably, I'm in my right mind; can't walk and half talk. My beautiful wife of 47 years has been a God-sent. I'm in an electric wheelchair and have a mini-van with a ramp. My wife is my Chauffeur. I married the former Barbara Ebert of Onaga, Kansas in October 1968. We were married in Onaga. We have 5 daughters, 10 grandchildren, 2 great grandchildren. We spent the first few years of married life in restaurant management. The last several years, until retirement, in van conversations. I was a factory representative for a small company in Mississippi. I've been retired since 2006. Had my first 2 strokes in 2007. Then the big one in 2012. That was the stroke that almost killed me and put in the nursing home. To answer the question "what have you done with your life?", I'd have to say, it's been my life as one of Jehovah's Witnesses. There's no substitute for knowing the truth of the Bible. It's awesome to see the big picture of Jehovah's purpose for the Earth and mankind. I just wish everyone could see it, but they can't. (2 Corinthians 4:8) I have to wonder if any of the class of '62 are now Witnesses of Jehovah.

Verhulst Judy JoAnn CLHS1962 married Mazur Sterling Hgts

32 IS THE SAD TOTAL OF DECEASED IN CLASS OF 62 THAT WE KNOW ABOUT  
BUT THERE ARE PROBABLY SEVERAL MORE because no one reports them. By 2060 everyone in this entire document will be dead and unless a history is done they will be forgotten.

Other Classes

**Frederick Ronald** graduated CLHS 1956 Joined Corps of Engineers for a couple of years worked at Martin electric, then Steller Engineering, then Chrysler Defense Engineering. He worked there for years as a drafting detailer until drafted into US Army where he served at Ft Knox and Ft Dix doing survey work then served in Korea in artillery group. Got out in 1932 went back to Defense Engineering and Dodge Truck Engineering doing drafting. Retired after 37 years but got called back to work to do more work on tanks at General Dynamics. Took his family to Disney Land.
