Pronunciation is as in English except for the following. a e i o u are pronounced as in “Pa let me go to.” Each vowel and letter have only one clear sound Pronunciation is as follows:

c like the ts sound of ts,

ch like the ch in chew,

g like the g in go,

gh like the g in gem,

j like the y in yes,

jh like the s in pleasure,

s like the s in set,

sh like the sh in ship,

uh like the w in now,

hh like the ch in loch. Is rare. There is no q w x

y. The accent is on the next to last syllable.  
No exceptions in the grammar.

There are six diphthongs:

aj like the y in my

aũ like the ou in **out**

ej like ay in **stay**

eũ like the o in **who**

oj like the oy in **boy**

uj like the ui in **ruin**

All words are pronounced as spelled and spelled as pronounced. Six letters (c g j u s h) in the original language had hats because they had two sounds but we have substituted the letter h instead of a hat to make printing easier. This corresponds to what in English we call soft G and hard G where a letter of the alphabet had more than 1 sound. All letters in this language have only 1 sound.. After you use this for a short while you will discover this is the easiest language to pronounce and spell of all languages in the world. No exceptions.

**re** can be added to any verb to form new meaning

help rehelp helpas rehelpas

**ist** means professional person as dentist dentisto

**in** means feminine and can be added to any word that makes sense dentistino a female dentist

**et** means smaller like English majorette little glass glaseto

rivereto small river

**eg** means big or bigger big glass glasego big river riverego

These suffixes and many more work with any word in the entire language in which it makes sense. Thousands of meanings can be created without prior memorization saving thousands of hours of study time, And cost, as time is money.
