

St Clement Cemetery Center Line Michigan Stone locator.

Page 10,001 Book 100

Listing by rows starts on page 10,008

Alphabetical listing starts at page 10,061

This is a work in progress, mainly the work of an old historian, I am solely responsible for any mistakes. I am in the process of recording as much history of the approximately 4-6000 persons buried here as is possible. If you know of anyone buried here especially if they do not have a gravestone please contact me at wecare@macombhistory.us. or wesleyarnold@yahoo.com Also if you can send me the history of anyone you know buried here or at Warren Union Cemetery please do so so that can be recorded in a history book for future generations. If you do not do so that history will be lost.

Most of the graves in this cemetery are in East to West orientation. But some on the north edge in the middle are north South orientation as is the entire Ritter section. In general adult graves average 3 feet wide and 8 feet long. Baby and stillborn graves are much smaller. Most are unmarked, forgotten, and for the most part unrecorded. There are most likely hundreds of unmarked baby graves here and in Warren Union Cemetery. Considering that there were often more than twice the number of children who died than adults prior to about 1920 and most of those were not even registered. They are missing from both county and church records prior to WWII. Perhaps 20-60% of the persons buried in the old sections of this cemetery now have no stone. Records at most old cemeteries such as this one are poor and incomplete if they exist at all. This not the fault of the current caretakers who are doing a good job of maintaining this cemetery (considering being understaffed.)

It appears the best way to make a location index is by listing the location by 3 foot rows South of the North fence. Next listed is the number of feet and eight foot walking rows East of the West fence. Walking rows are fairly easy to count. Landmarks are noted below. The burials do not quite always jive with the row footage as there are some irregular widths and some left over aisles. Many burials were not precisely lined up. The Center of the Walkway averages about 300 feet from the far West fence. Also it appears not to be in precise North to South alignment. The Central walk counts as row 36. The pictures of every stone will give additional information are being posted but it will take time to post 3600. Some of the pictures I took years ago show words no longer readable now due to weathering. It is the purpose of this recording to help preserve our local history for future generations. Needed are persons who have family records for burials and what appears on the remaining stones to contact me so this information can be recorded in history books before it is lost and forgotten. Much of the history of our pioneers has been lost because people simply neglected to write it down and see that it was put into a library. If you have any historical information at all please contact me so I can add it to the history books. I will be glad to acknowledge you as the source of the information.

Please send info to me Wesley Arnold historian at above email. This book and my other 100 local history books are my gift to our community and to future generations please preserve copies.

END OF LANDMARKS

STONES BY NORTH SOUTH ROWS

The rows running from north to south have been measured by tape measure (all I had to work with) and generally are layed out as follows. most graves follow this pattern but there are exceptions and variances. NOTE THIS IS A WORK IN PROGRESS

Here are the Stones of St Clement Cemetery Center Line Michigan inside Warren of Macomb County

Following are North to South "walking rows" (meaning mostly visible rows of stones) starting at

The Most North Westerly corner. Please advise me, Historian Wesley Arnold, of any corrections. wecare@macombhistory.us. This was last revised Jan 18, 2015.

Abbreviations used are s= south e=east c=about w=west n=north rr=Ritter row

I have put this in two columns so that it uses less paper when printed.

The Most West row is row 1 which is 3-11	Sullivan Patrick 1941 171's s57e1
feet east of the West fence by playground.	Sullivan Patricia Kellogg 1956 172's s58e1

STONES IN A-Z ORDER

ALPHABETICAL LISTING OF
 CURRENT VISIBLE STONES **showing
 names and page in book stone is
 shown on,**

**WITH THE LOCATION IN 3 FOOT
 ROWS SOUTH AND WALKING ROWS
 WEST TO EAST.** These average eight feet
 but this width varies and there are several
 aisles. I am gradually adding footage
 measurements. Example Ryan Tim s4e35
 means south 4, 3 foot rows east 35 walking
 rows. This is the first tall stone at your right as
 you come in on the main North to South Walk.
 This walk is row e36.
