

St Clement Cemetery Center Line Michigan Stone locator.

Listing by rows starts on page 2508

Alphabetical listing starts at page 2557

This is a work in progress. The conventional way of mapping is to show the map with the top at North and West to the left. Most of the graves in this cemetery are in East to West orientation. But some on the north edge in the middle are north South orientation as is the entire Ritter section which includes the 11 southern most north South oriented rows. In general adult graves average 3 feet wide and 8 feet long. Baby and unborn graves are for the most part unmarked, invisible, forgotten, and sometimes even unrecorded. The few baby graves visible are much smaller. You see no stillborn graves. There are probably hundreds of unmarked baby graves here and in Warren Union Cemetery. This cemetery probably has between 4,000 and 16,000 burials many unmarked based on county death records and in consideration of those not registered and considering that there were often more than twice the number of children who died than adults prior to about 1920. Perhaps 20-60% of the persons buried in the old sections no longer have a visible marker. This not the fault of the current caretakers who are doing a great job of maintaining this cemetery (considering being understaffed.)

It appears the best way to make a location index is by listing the location South of the North fence. Next listed is the number of feet and eight foot walking rows East of the West fence. Walking rows are fairly easy to count. Tape measure measurements are being taken. The burials do not quite always jive with the row footage as there are some irregular widths and some left over aisles. Many burials were not precisely lined up. The Center of the Walkway averages about 300 feet from the far West fence. Also it appears not to be in precise North to South alignment. The Central walk counts as row 36. The result of a summer of measuring and recording has resulted in a fairly accurate listing of where grave stones are located. The pictures of every stone will give additional information. Some of the pictures I took years ago show words no longer readable now due to weathering. It is the purpose of this recording to help preserve our local history for future generations. Needed are persons who have family records for burials and what appears on the remaining stones to contact me so this information can be recorded in history books before it is lost and forgotten. Much of the history of our pioneers has been lost because people simply neglected to write it down and see that it was put into a library. This study is only a small part of the historical research being done on our area. If you have any historical information at all please contact me so I can add it to the history books. I will be glad to acknowledge you as the source of the information.

Please send any corrections or additions to me Wesley Arnold historian at wecare@macombhistory.us This book and my other books are my gift to our community and to future generations please preserve copies.

SOUTH FENCE 468'

STONES BY NORTH SOUTH ROWS

----- _____ ----- _____ ----- _____ -----

The rows running from north to south have been measured by tape measure (all I had to work with) and generally are layed out as follows:

Note most graves follow this pattern but there are exceptions and variances

STONES BY NORTH SOUTH ROWS

NOTE THIS IS A WORK IN PROGRESS
Here are the Stones of St Clement Cemetery
Center Line Michigan inside Warren of
Macomb County

Following are North to South "walking rows"
(meaning mostly visible rows of stones) starting
at
The Most North Westerly corner. Please advise
me, Historian Wesley Arnold, of any
corrections. wecare@macombhistory.us. The
rows still need to be double checked but at least
you now have a very good listing of all of the
visible stones. This was last revised Nov 8
2014.

Abbreviations used are s=south e=east c=about
w=west n=north rr=Ritter row

I have put this in two columns so that it uses
less paper when printed.

**The Most West row is row 1 which is 3-11
feet east of the West fence by playground.**

STONES

IN A-Z

ORDER

ALPHABETICAL LISTING OF CURRENT VISIBLE STONES

WITH THE LOCATION IN 3 FOOT ROWS SOUTH AND WALKING ROWS WEST TO EAST. These average eight feet but this width varies and there are several aisles. I am gradually adding footage measurements. I am also in process of adding a picture of each stone to the books following this one. Example Ryan Tim s4e35 means south 4, 3 foot rows east 35 walking rows. This is the first tall stone at your right as you come in on the main North to South Walk. This walk is row e36.

Send additions and corrections to:

Wesley Arnold historical researcher

wecare@macombhistory.us

If you know histories or genealogy of any person or family related to this cemetery please send it to me so I can put it in the history books so it will be preserved and not forgotten.

To see pictures of every stone

go to

<http://macombhistory.us/adl/zadl.html#stones>
